Lisa, I'm confused by your question. This is not a decision for me to make. This is your program and your federal EPA funding, and if you determine that the intent of your funding fits the situation at this site, there is nothing for me to review here.

Good afternoon Mel,

I hope you are doing well.

Stan Walker wanted me to reach out to you one more time to make sure you are not interested in moving forward with a TBA for the Clinton Engines and Museum properties?

Thank you,
